Restroom at Northwest Sherando

Date:

October 10, 2018

The Frederick County Parks and Recreation Commission is requesting \$ 174,185 in Parks and Recreation proffer funds for a restroom at Northwest Sherando Park. This project is consistent with the Sherando Park Master Plan, and the restroom building is identified as a priority on the 2018/2019 Capital Improvements Plan. As a regional park the service area of Sherando Park is 15 miles, an area encompassing most of the proffer contributing developments in Frederick County.

The restroom building is part of a larger project currently underway at Sherando Park. Other elements of this project funded by a combination of proffer funds and VDOT grant funds include an entrance road, parking lot, and outdoor gym.

Please feel free to contact me with any questions.

Parks proffer balance @ 9/30/18: 309,122.87

Frederick County Cash Proffer Policy

As approved by the Board of Supervisors on January 28, 2009.

Proffered funds received by Frederick County will be held for the use specified by the proffer language. In the case of funds proffered to offset impacts to fire and rescue services, in the absence of other proffered specifications, the funds will be earmarked for the first due company in the area of the subject rezoning at the time the proffered funds are received. All proffered funds will be collected, held, and will accumulate until such time as a capital project funding request is received from a qualifying County department, agency, or volunteer fire and rescue company.

Qualifying agency or departmental **requests to access proffered funds shall be submitted to the County=s Finance Department** for processing. In order to qualify as a capital project the following criteria must be met:

- 1) the item or project must have a minimum value of five thousand dollars (\$5,000), and:
- 2) the item/project must have an anticipated useful life of at least five (5) years.

The Finance Department will forward requests to the Finance Committee for a recommendation to the Board of Supervisors on the appropriateness of the use of proffered funds for the requested purpose. To assist the Finance Committee and Board in their deliberations requests to utilize proffered funds should include the following: 1) the amount of funds requested, 2) the total project cost, 3)a detailed description of the desired capital project or purchase including a discussion of how recent or anticipated development contributes to the need for the expenditure, and, 4) indicate whether or not the item or project is listed on the County=s Capital Improvements Plan (CIP).

In order to comply with State Code '15.2-2-2298 (A) the Planning staff, working in conjunction with the County Attorney, will attempt to insure that cash proffers associated with future rezonings are appropriately addressed through inclusion of relevant capital projects in the County=s CIP prior to acceptance of the proffered funds.

For the purpose of determining whether a project or item is appropriate for individual listing on the CIP only, a threshold value of \$100,000 and useful life of at least five year shall be utilized. (This would not preclude the purchase of capital items valued at less than \$100,000 utilizing proffered funds, where other relevant criteria are met and procedures followed.)

- II. Benefits of Funding an OPEB Trust
- III. Establishing an OPEB Trust
- IV. How PFM Can Help
- V. Appendix

Other Post-Employment Benefits ("OPEB")

• Other (than pension) Post-Employment Benefits

What is OPEB?

- Retiree medical, dental, vision, prescription drug, life, and longterm disability and care
- Deemed a form of deferred compensation
- Promise to provide retiree benefits must be accrued during the working years of employees

OPEB Concerns / Considerations

- Growing liabilities
- High healthcare inflation rate
- Compliance with GASB standards
- New GASB Rules
- Investment of an OPEB Trust

Frederick County's OPEB Program

- Frederick County offers the following benefits to retirees:
- If hired prior to July 1, 1995:
 - Benefits offered to employees who retire under VRS or after age 50 with at least 20 years of continuous service
 - County provides 100% health insurance coverage until eligible for Medicare
 - Once eligible for Medicare, County provides 100% supplemental insurance
- If hired after July 1, 1995 through June 30, 2012:
 - Benefits offered to employees who retire under VRS with full benefits and with at least 30 years of continuous service (or at least 25 years for law-enforcement officers)
 - County provides 100% health insurance coverage until eligible for Medicare
 - Once eligible for Medicare, County provides 100% supplemental insurance
- If hired after July 1, 2012
 - No benefit offered

History of GASB Accounting Standards for OPEB Providers

- Prior to 2004, OPEB liabilities were grossly understated on financial reports of public employers
- GASB standards (GASB 43 and 45) were designed to improve the information reported on OPEB for:
 - Decision-making and accountability purposes
 - Comparability across governments
 - Transparency
- New GASB accounting rules (GASB 74 and 75) have increased the visibility and impact of OPEB liabilities

Benefits of Funding an OPEB Trust

Common Funding Options

PAYGO or "Pay-as-you-go"

Irrevocable Trust

Benefits of Funding an OPEB Trust

- Frederick County has an unfunded OPEB liability of \$39.5 million
- By prefunding an OPEB Trust, the County is able to:
 - Use a higher interest rate assumption, resulting in a lower actuarial liability
 - Offset its liability with Trust assets
 - Invest for higher potential returns to outpace healthcare inflation
 - Reduce annual costs of paying benefits over time
 - Access funds at any time to pay for retiree OPEB benefits
 - Demonstrate to creditors that you are proactively addressing the growing liabilities

A Sustainable OPEB Plan for Frederick County

GASB Rules for an OPEB Trust

Current GASB standards state that to be allowed as a direct balance sheet offset to the OPEB liability, the OPEB assets must have the following characteristics:¹

- 1. Must be irrevocable;
- 2. Remote from creditors; and,
- 3. For the exclusive benefit of participants and beneficiaries.
- Remoteness from creditors has been widely viewed as having two components:
 - The trust is its own legal entity; and,
 - The employer and its agents do not exert specific control over investment of the assets.
- Employing a discretionary advisor assists in meeting the remoteness standard.

OPEB Trust Requirements in Virginia

- Chapter 15 (§ 15.2-1544 et seq.) of the Code of Virginia allow Virginia municipalities to develop OPEB Trusts.
- Virginia Code requires:
 - Assets must be held in an irrevocable trust for the exclusive benefit of providing postemployment benefits to active or former employees
 - Assets may be transferred from one trust or equivalent arrangement to another
 - A finance board must be formed to serve as trustee of the OPEB trust
 - The finance board must consist of the chief financial officer, treasurer, and a citizen of the Commonwealth
 - Alternatively, an established retirement board or deferred compensation board responsible for managing pension benefits may serve as trustee
 - The finance board must meet no less than four times per year
 - Assets must be invested according to the prudent person standard and are not limited by Chapter 45 (§ 2.2-4501 et seq.)

Determining a Customized Asset Allocation

- Asset allocation is the most important investment decision and has the largest impact on performance.
- When determining an appropriate asset allocation, the County should consider:
 - Discount rate
 - Funded status
 - Expected risk/return of asset classes
 - Board's risk tolerances
 - Liquidity needs
 - Potential changes to benefit level

TO: County Administration

FROM: Judith McCann-Slaughter, Finance Committee Chairman

SUBJECT: FY 20 Budget Overview

DATE: October 20, 2018

I would like to thank all departments who I have spoken with as well as those who sent me information regarding their upcoming budgets. To those departments that I have not spoken with, I look forward to having discussions during the upcoming budget process.

The purpose of this memo is to highlight preliminary FY 20 budget information that we know at this time and those areas that are considered uncertain. It is my hope that this information will give you guidance while compiling your budget requests and provide you with an understanding of the overall county budget.

Capital funding has been handled numerous ways over the past decade. We have funded capital in the operating budget as a one-time expense and we have also done supplemental appropriations from fund balance after year-end for capital requests not funded in the budget. Transportation funding for the school system and public safety continue to be emphasized. We have developed a vehicle replacement matrix to allow us to identify critical replacement needs and are currently pursuing a capital funding policy that could be funded annually.

Additional funding for staffing is one of the largest budget considerations that occurs during the budget process. This past year, an emphasis was placed on funding firefighter positions. While the demand will continue for firefighters, the demand for school resource officers, teachers, social service workers and other

administrative positions continues. Another issue that we will be facing in the near future is the retirement of many senior staff within the Fire and Rescue Department. This matter will require a strategic succession plan so that operations continue smoothly through this transitional period. We will always balance our resources with our needs for staffing. In the past two fiscal years, we have added 138 employees to our workforce during the budget adoption with 90 going to schools, 27 to fire and rescue and the remaining 21 to judicial, social services, public safety and administration. Discussions on employee retention with competitive salaries will continue to take place so that we can retain our valuable staff's knowledge.

Too often, the budget process is driven with the uncertainties. These uncertainties can often change the entire strategy of budget discussions from the beginning to the end. An example from last fiscal year was Medicaid expansion that was approved by the state after the County's budget was adopted. Other uncertainties include state funding, VRS retirement rates, health insurance, and property reassessments.

As always, we will work together in the upcoming months and develop a budget that recognizes our priorities and ability to fund those priorities. I have attached a tentative FY 2020 budget calendar for your convenience.

MEMORANDUM

TO:

The Frederick County Finance Committee

FROM:

Dennis D. Linaburg, Chief

Fire and Rescue Department

SUBJECT: Training Reimbursement Information

DATE:

October 3, 2018

'As requested at the August Finance Committee meeting, the Frederick County Fire and Rescue Department follows the County's policy regarding tuition assistance for employees seeking Advanced Life Support (ALS) certification and/or degrees.

The Department routinely covers the cost of tuition and books for courses taken through an accredited college or university solely for ALS advancement. Employees are required to sign the Tuition Agreement, indicating they understand the conditions applicable to advanced tuition payment. I have attached a copy of the Tuition Agreement for your review.

While uncommon, the Department has withheld pay from employees who did not meet or maintain the conditions of the Tuition Agreement.

If you have any questions or would like to further discuss the information provided, please do not hesitate to contact me.
