Shawneeland (16-8108) Narrative 2023-2024

Description:

In 1987, the Frederick County Circuit Court ordered that a sanitary district be established for Shawneeland. The board of supervisors is responsible for all aspects of the operation of the Shawneeland Sanitary District (SSD). The SSD is financed from SSD taxes imposed only on property owners within the SSD. SSD taxes are not commingled with other funds in the county, are separately accounted for, and are used only within the sanitary district. To provide an interface between the citizens of the SSD and Frederick County a "Shawneeland Sanitary District Advisory Committee" was appointed by the Frederick County Board of Supervisors. The suggestions of the advisory committee are directed through the SSD manager to the board of supervisors for approval.

The main priority for the SSD is the maintenance of existing roads. This task has increased in scope and complexity with time because of the aging road surfaces, poor drainage, and more traffic. As Shawneeland grows, the road network is exposed to more traffic and construction vehicles. The roads were not designed or built for vehicles of such size or weight. Therefore, although new homes add to our tax base, they also have a detrimental impact on the budget until the cost of damage repair is countered by tax collection.

In addition to road maintenance and snow removal, we maintain two lakes and two ponds. We fabricate and install our own street name signs. We are responsible for maintaining Cherokee Lake Dam. In addition, we maintain a beach on Cherokee Lake, 2 mail houses, 2 bus stop shelters, the Shawneeland Office and Maintenance Shop, a ball diamond, 2 playgrounds, and picnic areas. We maintain about 40 acres of grass which is kept neatly groomed for the use of all property owners within the SSD.

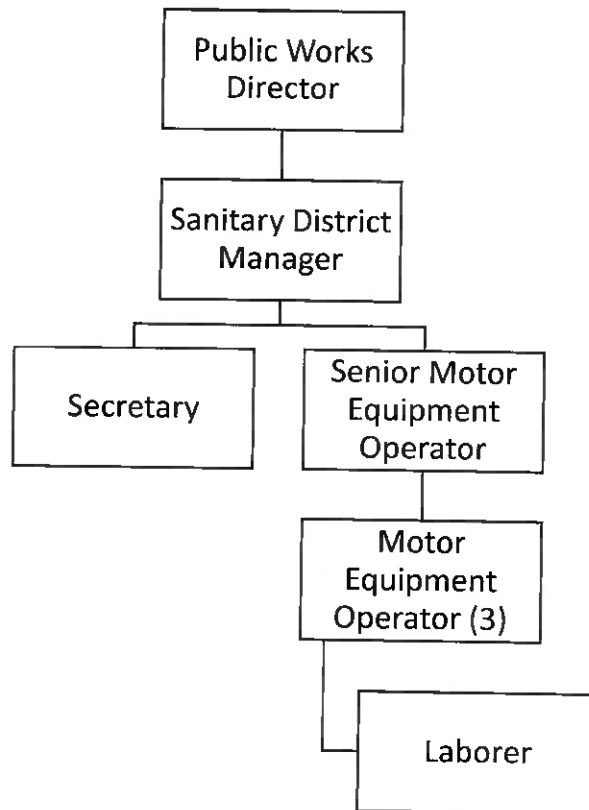

The Shawneeland staff continues to replace drainage culverts that have lived their usable life span. Drainage culverts are evaluated and replaced based on the state of wear they are in. If the culverts are deemed to need replacing, then several factors come into play based on their location. The diameter of the culvert for adequate water flow during heavy rain events. The length of the culvert for adequate width of the intersection or roadway where they are located. The location of the culvert to make sure it is in the location for maximum water flow.

Mission

We strive to work safely and efficiently to ensure the roads and common areas are effectively maintained for Shawneeland residents.

What We Do

- The Shawneeland Sanitary District (SSD) was established by the Frederick County Board of Supervisors
- By designating this area as a Sanitary District, the County can levy additional taxes on the residents and/or landowners
- The Manager of the SSD is hired by and works for the Board of Supervisors
- An active advisory committee within the Sanitary District makes recommendations to the Board of Supervisors through the SSD Manager
- The Shawneeland Sanitary District crew maintains 104 lane miles throughout Shawneeland
- The staff maintains and repairs all SSD-owned equipment in-house when possible
